

## LAVELLE ACQUIRES HUNTER PLUMBING PRODUCTS

September 6, 2000

Lavelle finalized details for the purchase of Hunter Plumbing, San Marcos, California.

"We are excited about the opportunity to offer an expanded line of plumbing repair products to the wholesale, and do-it-yourself markets", states Rhonda Sullivan, Lavelle's president.

Included with the purchase of Hunter Plumbing are key plumbing repair products including the newest addition to the Hunter line; the 528 toilet tank fill valve product that will be available through wholesalers and retailers.

Since 1912 Lavelle Industries has utilized research and innovation to further the development of its product line. Korky® products have been recognized by plumbers and do-it-yourselfers for quality and reliability. In keeping with that tradition Rhonda Sullivan states, "The Hunter fill valve is an ideal extension to Lavelle's current product line."
